

What's In Your Logbooks?

The documentation requirements for Light Sport and Experimental aircraft differ somewhat from those that apply to certified aircraft. In this WINGS and AMT Award safety seminar, a Flight Instructor (CFII) and Aviation Maintenance Technician (AMT) who specializes in the Light Sport regulations will review the good, the bad, and the ugly! Discussion will include logbook entries, pre-purchase evaluations and condition inspections on a variety of LSAs. This safety seminar is part of the 10th anniversary of the US Sport Aviation Expo. Click on the link below to see all of the details and register TODAY! We'll see you there!

Directions: Middle T-hangar in the Sport Aviation Expo forum area.

A message from the National FAASTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!
